

# WELCOME TO MEXICO!

## SHOEMAKERS OF THE FUTURE

OEM / ODM footwear manufacturing in Mexico — export-ready for U.S. & Canada.

# END-TO-END MANUFACTURING FOR SPECIALIZED FOOTWEAR.

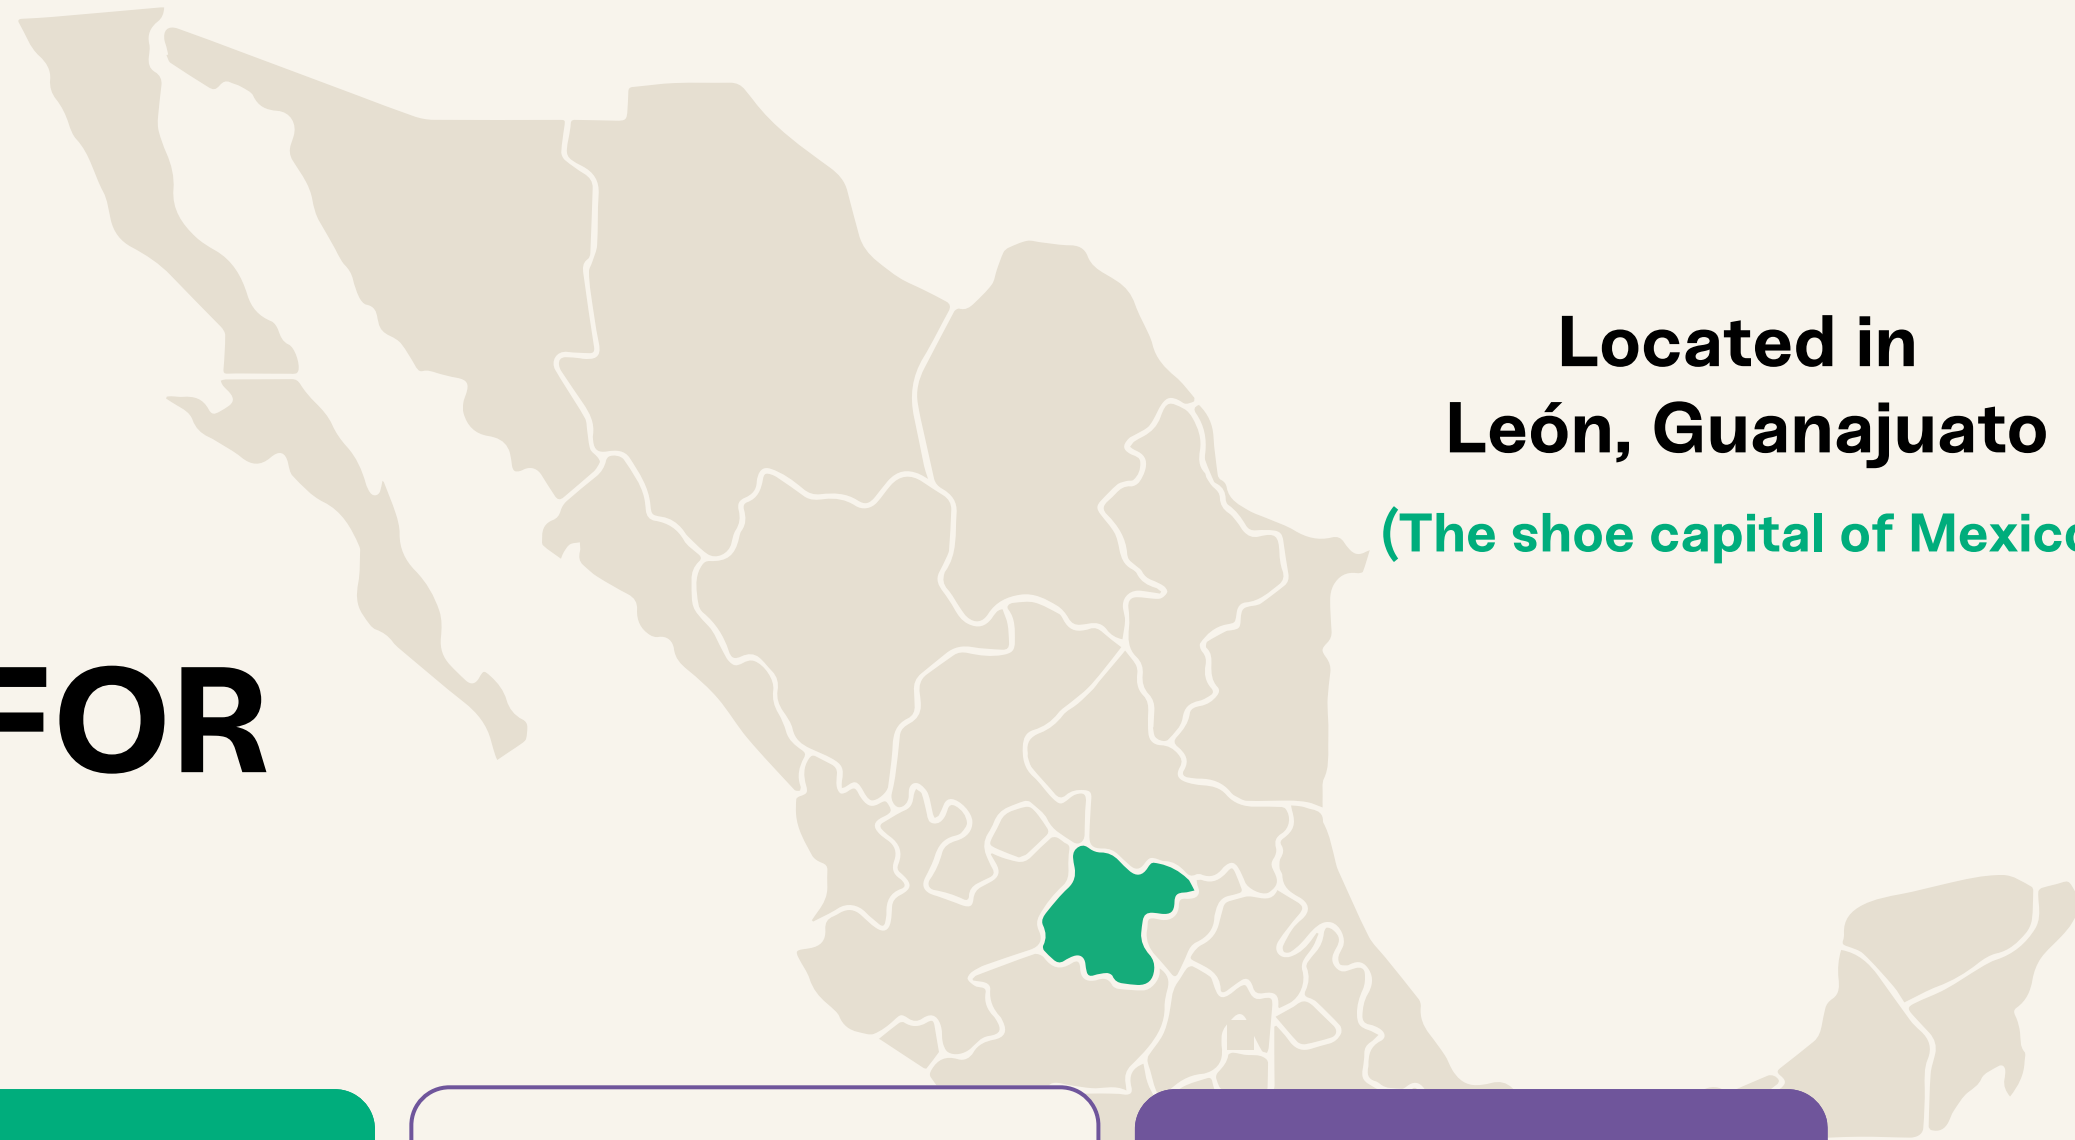

From R&D and prototyping to automated cutting, precision stitching, assembly, and export. Abucombal delivers a one-to-one partnership for high-value programs.

Automated cutting + precision stitching + standardized SOPs for repeatable quality.

ERP-linked traceability by batch, vendor, and production stage.

Export-ready operation for nearshored North American supply chains.

# MEXICO. ENGINEERED FOR FOOTWEAR.

**Located in  
León, Guanajuato**  
(The shoe capital of Mexico)

## USMCA compliant

manufacturing programs  
**zero-tariff** eligibility  
(when qualified)

## 4 Generations

A legacy of **shoemaking  
knowledge**

Annual production

# 350k+

Annual capacity surpassing  
350,000 pairs, depending on  
model mix and complexity.

## One-stop shop manufacturing

From product development,  
engineering and prototyping  
to automated cutting,  
stitching, assembly and  
quality control.

# USMCA ADVANTAGE: LOWER LANDED COST + MORE PREDICTABLE PLANNING.

AVERAGE TARIFF TO THE US 

 20% +  
India

 25% +  
Vietnam

 **0% (USMCA)**  
**Mexico**

 15% +  
European Union

 35% +  
China

Nearshoring turns tariffs into a controllable variable. Under USMCA-aligned manufacturing, programs can reduce exposure while improving speed and coordination.

# NORTH AMERICAN PROXIMITY **FOR FASTER,** MORE RELIABLE **PRODUCTION.**

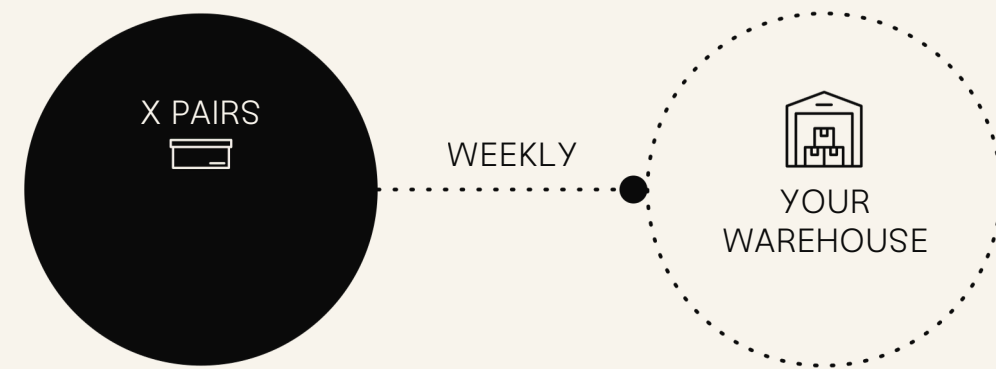

Located in **León, Guanajuato**

-  Nearshoring advantages
-  Next-day border delivery
-  0% Tariffs USMCA agreement = Lower cost
-  One stop shop
-  Geographical proximity to U.S./Canada
-  Faster lead times, rapid replenishment, and flexible MOQs
-  Export readiness
-  Operational agility + direct communication

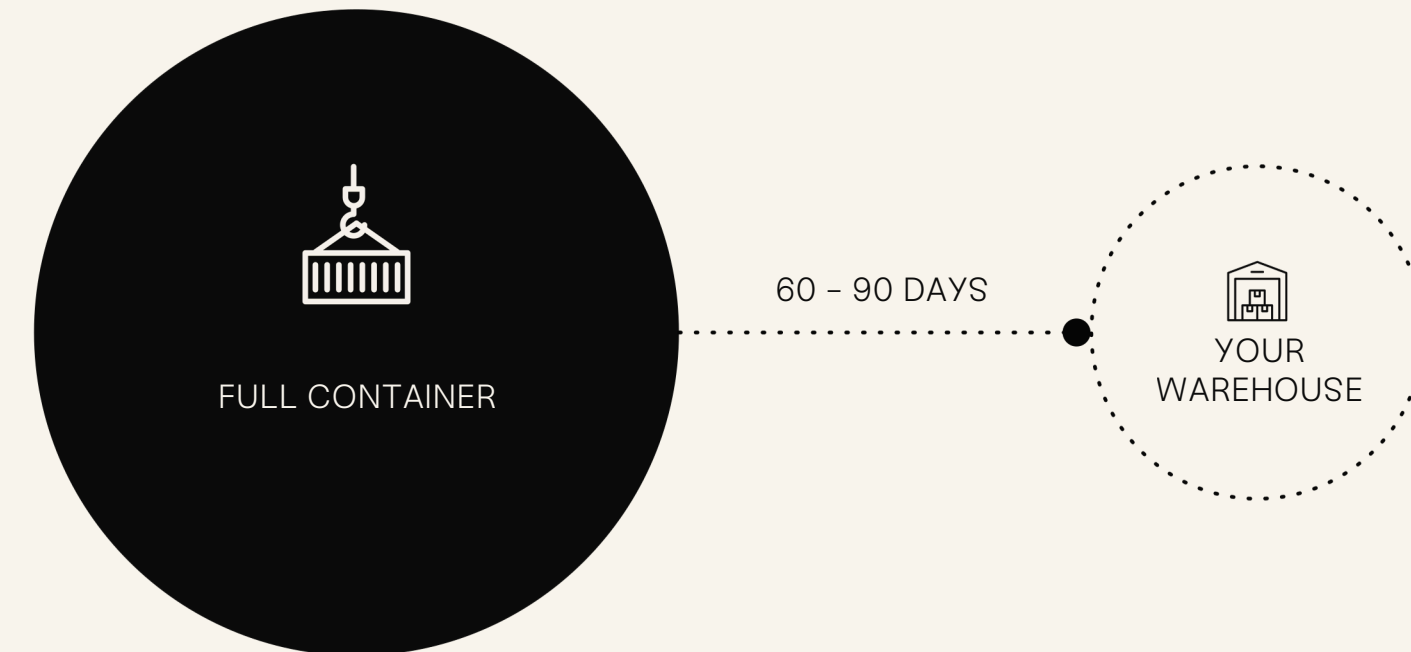

# FASTER LEAD TIMES. RAPID REPLENISHMENT. FLEXIBLE PRODUCTION.

Offshore production often forces full-container commitments and long transit windows. Abucombal enables a consistent nearshore production flow designed to reduce inventory risk and improve cash-flow control through faster cycles and flexible programs.

## ABUCOMBAL

CONSISTENT PRODUCTION FLOW WITH REDUCED RISK

## OTHER PARTS OF THE WORLD

FULL CONTAINERS REQUIRED, LIMITING FLEXIBILITY

# CERTIFIED. AUDITED. VERIFIED.

MANUFACTURING PROCESSES ALIGNED WITH INTERNATIONAL STANDARDS INCLUDING ASTM, ISO, CSA AND LEATHER WORKING GROUP.
